

1st Semester:

During the first semester, discovering Russian's life was the most interesting part. Visiting Moscow and Russian culture is a unique experience.

In addition, the coordinator was really helpful in every way such as administrative papers (which are a lot in Russia), rules and things to do and not to do (and some you are supposed to not do, but people still do it anyway because it is Russia).

Unfortunately, subjects may change during the time you apply and the time you are in Russia, but anyway you will find some interesting topic that can compensate for it which is really great from the university.

From December to January you have a lot of free time which is really great to travel through Russia (Lake Baikal is a must in my opinion, especially when it is frozen because it is beautiful)

2nd Semester:

Now you know Russian culture and life, it is actually possible to integrate some sport team if you would like. You will meet a lot of Russian people and they will welcome you so kindly !

Unfortunately COVID19 started during this period, which canceled some planned trips however the university responded in the best way by organizing online classes by zoom which were as interesting as in class!

Conclusion:

If you have the chance to go in Russia for two semester, do it. One is not enough in my opinion because winter and summer are totally different !

I would like to thank again Victoria Grishina, the coordinator from Lomonosov Moscow State University for everything because she was really a good help for us. She did her best to make our stay enjoyable even during the crisis!
